HOPE WATER & LIGHT TO HAVE I-30 WATER TANK INSPECTED

Hope Water & Light will have the I-30 elevated water storage tank inspected by Tank Industry Consultants beginning about 8:00 a.m. on Wednesday, December 1, 2021. The inspection will utilize a sterilized remotely operated vehicle (ROV) with a camera that will inspect the tank using underwater technology.

The purpose of this “Water Tank Inspection” is to determine the condition of the interior of the water storage tank that cannot be visually inspected. The exterior of the tank will also be inspected. ROV inspection is accepted by the Arkansas Department of Health.
